LN InfoSec Pvt Ltd, a company that assists enterprises with cybersecurity, governance, risk, and compliance initiatives, providing both advisory services and implementation support. Lakshminarayanan Ramanujam, MD with over 35 years' experience in IT across the US, UK, Netherlands, and India and more than 15 years in cybersecurity, We offer technical and strategic expertise informed by work with global banks, corporations, government entities, and critical infrastructure projects.

Founded by Lakshminarayanan Ramanujam hold certifications including CISSP, CISA, and PMP, and have managed projects in areas such as identity and access management, application security, red team assessments, digital forensics, regulatory compliance, and IT infrastructure. LN InfoSec focuses on implementing practical GRC frameworks, delivering security assessments (Red Team, Application Security, Network, WiFi, External Threats), incident response and digital forensics, and supporting compliance with standards including ISO 27001, SOC 2, PCI DSS, and HIPAA.

Our approach emphasizes developing effective security infrastructures aligned to business objectives and risk management requirements. For organizations seeking to improve GRC and security performance, We are available to discuss potential solutions

Mission & Vision

Our Mission: To enable organizations to skillfully identify cybersecurity risks, address them quickly to protect and save resources by deploying our state of art cyber security solutions.

Our Vision: To be the trusted partner of choice for cybersecurity solutions across all Business & Industries, regardless of the size.

What We Do

We specialize in developing and deploying comprehensive **cybersecurity products and services** designed to address a wide range of vulnerabilities and risks. Our offerings include, but are not limited to:

Our Cybersecurity Partnerships and Offerings

Strategic Partnerships with Leading Product Companies

We have established partnerships with some of the best product companies in the industry to deliver a comprehensive suite of cybersecurity solutions. Our collaborative approach ensures that our clients benefit from cutting-edge technologies and expert support tailored to their unique security needs.

Comprehensive Cybersecurity Product Portfolio

Our offerings span several critical areas of cybersecurity, including:

- **Application Security:** Protecting software applications from threats and vulnerabilities.
- **Network Security:** Securing network infrastructure to prevent unauthorized access and attacks.
- **OT Security:** Safeguarding operational technology systems and industrial environments.
- **Cloud Security:** Ensuring the security of cloud-based assets and data.
- **Endpoint Security:** Protecting devices such as laptops, smartphones, and desktops from cyber threats.
- **Continuous Compliance Platform:** Providing tools to maintain ongoing compliance with industry standards and regulations.

Comprehensive Security Services

In addition to our product offerings, we provide a wide range of security services, including:

- **Virtual Chief Information Security Officer (vCISO):** Expert leadership and guidance for your cybersecurity strategy.
 - **Security Operations Centre (SOC):** 24/7 monitoring and response to security incidents.
 - **Managed Security Services (MSS):** Outsourced management of security operations.
 - **Compliance Testing and Implementation:** Assistance with testing and implementing various standards and frameworks such as ISO 27001, ISO 42001, HIPAA, DPDP, PCI DSS, CSCRf, and others.
 - **Training:** Comprehensive training programs to enhance your organization's security awareness and capabilities.
-

The "Unified Ecosystem" Approach

"Beyond specialized security, LN InfoSec Pvt Ltd serves as your strategic procurement partner for a global suite of world-class software. As authorized dealers for industry leaders like Microsoft, AWS, and Google, we provide seamless access to O365 productivity suites, AI-driven workflow tools, and scalable cloud subscriptions. By sourcing your core business infrastructure through our SME-led framework, you ensure that every license—from office tools to firewalls—is backed by the same technical rigor and quality standards that define our cybersecurity practice."

Why Choose Us?

- **Expertise:** Our team comprises highly certified cybersecurity professionals with deep industry knowledge and practical experience.
- **Innovation:** We are committed to continuous research and development, ensuring our solutions are always ahead of emerging threats.
- **Tailored Solutions:** We understand that every organization is unique. We provide customized solutions that align with your specific security needs and business objectives.
- **Proactive Approach:** We focus on preventing breaches rather than just reacting to them, providing a strong defensive posture.
- **Client-Centric:** Your security is our priority. We offer exceptional support and build long-term partnerships based on trust and results.

Key Differentiators

- "Proprietary AI-driven threat intelligence platform that identifies zero-day vulnerabilities."
- "Seamless integration capabilities with existing IT infrastructure."
- "Industry-leading response times for incident management."

Our Team

"Our team of certified ethical hackers, security analysts, and compliance experts brings decades of collective experience to every client engagement."
